THE COMMUNIST PARTY OF KENYA UTTERLY CONDEMNS THE IMPERIALIST INVASION OF VENEZUELA BY THE USA

The Communist Party of Kenya (CPK) condemns in the strongest terms the illegal and imperialist invasion of the Bolivarian Republic of Venezuela by the USA led by fascist President Donald Trump.

The diabolical President of the United States of America and his imperialist Western allies, including Benjamin Netanyahu of Israel have also threatened to invade Iran by interfering in the internal affairs of Iran. The World must condemn this blatant fascism led by Trump. We should remember history and the rise of fascism led by Adolf Hitler. Today it is Venezuela, Iran and Cuba, but tomorrow it will be the whole World including Africa, Latin America, Europe, Asia, and USA itself.

The World must not repeat history, as it will be too costly in every aspect. CPK firmly stands in solidarity with Venezuela, Cuba and Iran.

The Communist Party of Kenya calls upon all progressives in Kenya and globally to rise up, hold demonstrations, and show solidarity with the popular leadership of Venezuela; and to condemn in no uncertain terms the imperialist invasion of Venezuela by the United States of America.
